

# SÉBASTIEN BOTTY

## DEV FULL STACK Jr

Junior full-stack JavaScript developer with **solid IT foundations** gained through academic studies at **EPHEC**, complemented by **practical self-learning**.

Hands-on experience in **full-stack development** through personal web and mobile projects, covering **frontend and backend**, API design, database management and integration of third-party services

## CONTACTS

Hélécine/Brussels, Belgique  
sebastien.botty@outlook.com  
+32 477 05 40 06

26 ans - 10/11/1999  
www.sebastienbotty.com

## LANGUAGES

French - Native  
English - C1  
Dutch - A1

## SKILLS

### Frontend

Frontend development using **JavaScript**, **TypeScript**, **React**, **React Native** and **Next.js**.

Strong knowledge of **HTML**, **CSS** and **SCSS** for building structured and responsive user interfaces.

Creation of reusable components, state management, and client-side routing.

### Backend

Backend development with **Node.js** and **Express**, creation of **RESTful APIs** and **real-time features** using **Socket.io**.

Database management using **MongoDB with Mongoose** and **PostgreSQL with Prisma**.

Implementation of authentication systems with **OAuth** and **Firebase Authentication**, and file storage with **AWS S3**.

### Méthodology

Daily use of **Git** and **GitHub**.

Familiar with **Agile** and **Scrum** methodologies

## FORMATIONS

### Self-learning

| Dec 2023 - Today

Regularly build **full-stack personal projects** to strengthen technical skills and apply best practices.

Work independently on project architecture, feature implementation and problem solving.

### Bachelor's degree in IT

| 2018 - 2023

*EPHEC, Louvain-La-Neuve*

Program stopped in final year.
